OVERVIEW

How you earn on RISE NFT

RISE NFT lets members grow their capital through daily asset reservations while building a team. Every balance change — deposit, reward, commission, salary and withdrawal — is written to an auditable transaction ledger, so your earnings stay fully transparent.

1

Deposit

Send USDT on the BEP20 network (min \$50). Paste your transaction hash — it is verified on-chain and credited automatically.

2

Reserve & Sell

Reserve once every 24 hours — the app auto-locks a random 70–80% of your wallet. Sell to unlock your principal plus a daily profit at your level rate. A few rounds each week may not settle.

3

Stake / Earn / Withdraw

Stake for a fixed daily income, grow with referral, team income & salary. Bind a BEP20 wallet (OTP + 72h lock) and withdraw within the rules.

Plan at a glance**Deposit & withdrawal**

Minimum deposit \$50 · minimum withdrawal \$50. Your level-minimum stays locked as non-withdrawable principal.

**Daily reward**

1.5%–5.5% by level — reserve (auto-locks 70–80% of wallet) then sell to realise it.

**Staking**

Lock funds in a fixed plan for a daily income. Principal returns at maturity · minimum stake \$50.

**Direct referral**

10% of a referral's first qualifying deposit (one time).

**Team income**

Level 1 10% · Level 2 7% · Level 3 5% on your team's realised income.

**Monthly salary**

Bronze / Silver / Gold / Diamond — auto-credited on the 10th of each month.

REWARD LEVELS

Seven levels, higher daily rate

Your level upgrades automatically as your team and wallet grow. Higher levels unlock a higher daily reward rate. Each level's minimum wallet stays locked as principal that keeps your rate active.

Lv	Name	Daily	Team	A (Direct)	B+C	Min Wallet
1	Ignite	1.5%	0	0	0	\$50
2	Rise	1.9%	7	3	4	\$400
3	Ascend	2.5%	15	6	9	\$1,000
4	Elevate	2.9%	45	15	30	\$3,000
5	Summit	3.5%	85	25	60	\$5,000
6	Apex	4.2%	150	35	115	\$10,000
7	Legend	5.5%	250	65	195	\$20,000

Team & referral income

Source	Rate	Applies to
Direct referral	10%	A referral's first qualifying deposit (once)
Level 1 · Direct	10%	Your direct team's realised reward income
Level 2 · B	7%	Second-generation team income
Level 3 · C	5%	Third-generation team income

MONTHLY SALARY REWARDS

Recurring salary for team builders

Reach a salary tier's team criteria and receive a monthly salary, credited automatically to your wallet.

Salary is released on the **10th of every month** — your criteria must be met by then.

Tier	Direct ≥	B+C ≥	Salary
● Bronze	10	50	\$125/mo
● Silver	18	90	\$300/mo
● Gold	30	250	\$500/mo
● Diamond	50	600	\$700/mo

The +30% growth rule

The first month you qualify, you receive your salary. To keep receiving it, each following month your total team must grow by **30%** compared to your team size at the last payout. The app shows exactly how many more members you still need — meet it by the 10th and the salary is paid again; miss it and no salary that month (resume any month you complete the +30%).

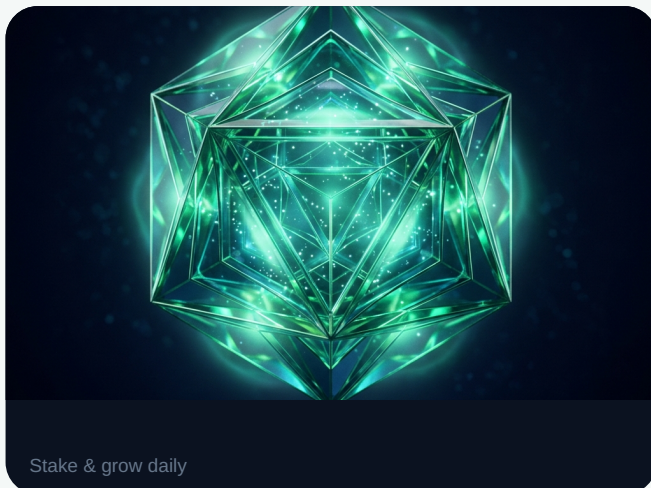

Month	Team at last payout	Required (+30%)	Result
1	—	Tier criteria	Salary paid
2	100	130	Paid if team ≥ 130 by the 10th
3	130	169	Paid if team ≥ 169 by the 10th

STAKING REWARDS

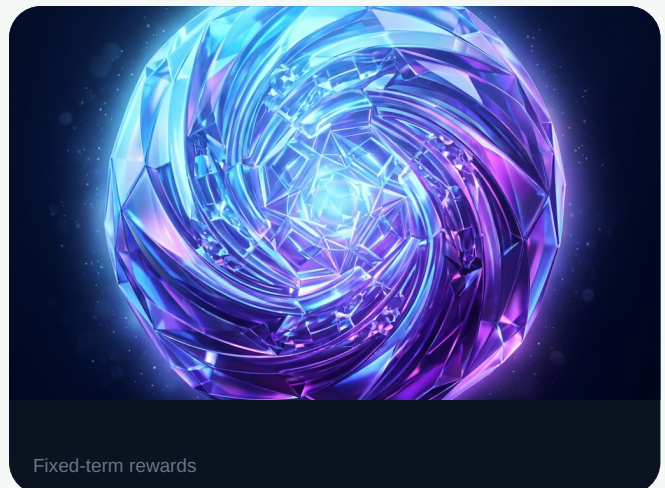

Stake & earn a fixed daily income

Lock funds into a staking plan and earn a fixed percentage every day. Daily income is credited to your **Staking Earning** wallet and is withdrawable once it meets the withdrawal rules; your staked principal unlocks and returns to your wallet when the plan matures. Pick your amount and duration — the app auto-calculates your expected return and shows live progress every day.

Plan	Duration	Daily Rate	Stake Range
● Starter	90 days	0.9%/day	\$50 – \$1,000
● Growth	180 days	1.3%/day	\$100 – \$2,000
● Elite	365 days	2.2%/day	\$100 – \$20,000

Stake & grow daily

Fixed-term rewards

How staking works

**Fixed daily income**

Earn a set % of your stake every day for the plan's duration — minimum stake \$50.

**Principal returns at maturity**

When the staking period completes, your original staked amount unlocks and is returned to your wallet, ready to withdraw.

**Withdraw daily earnings**

Daily staking income is added to your balance and can be withdrawn whenever it meets the normal withdrawal criteria.

**No upline team income**

Staking income is yours alone — it does not pass team commission to your upline, keeping the plan clean and predictable.

**Full transparency**

Every daily payout is recorded, so you can see exactly how much you earned each day and how far your stake has progressed.

RESERVE · DEPOSIT · WITHDRAW

Simple, rules-based cash flow

Rule	Detail
Deposit	USDT · BEP20 only. Minimum \$50. On-chain auto-verification by transaction hash.
Reservation	One reservation per 24h — auto-locks a random 70–80% of your wallet. Sell to unlock your principal plus profit. Some rounds may not settle.
Staking	Fixed-term plans pay a daily income; principal returns at maturity. Staking income earns no upline team commission.
Withdrawable	Total balance minus your level minimum (locked principal).
Withdrawal	BEP20 wallet binding with email OTP and a 72h security lock; one withdrawal per 24h.

Security & transparency

Email OTP everywhere

Login-sensitive actions — withdrawal, wallet binding, profile changes and admin access — are protected by one-time email codes.

Hardened accounts

Passwords are securely hashed and logins are rate-limited to stop brute-force attempts.

Auditable ledger

Every deposit, reward, commission, salary and withdrawal writes an immutable transaction record you can review any time.

Risk note: digital-asset values fluctuate and the daily rate is variable within the configured range. Rewards are not guaranteed. Please participate responsibly.
